

from Mrs. Adams, and could not help wondering, besides, at the miscellaneous nature of the loan requested. Her surprise was increased the following day when Bridget brought her mistress's compliments, and would like to borrow her clothes horse. "You may take it, but we shall want it early next week. But haven't you brought back the tumbler?" "No, ma'am," said Bridget, "mistress expects considerable company in a day or two, and it will save the trouble of borrowing again if she doesn't return them till afterwards." "Well," thought Mrs. B., quite unconscious of the beam within her own eye, though she readily discovered the note in that of her neighbor, "I must say that is decidedly cool."

Every New England housekeeper knows Tuesday is ironing day in all well regulated families.

"I should like to know," remarked Mrs. Brown on that morning, "why Mrs. Adams doesn't return my clothes horse. She must know that it will be in use to-day. Jane, go over and ask for it."

Give my compliments to Mrs. Brown," replied Mrs. Adams, "and tell her that since she borrowed our clothes line we've had to dry our clothes in the house, and therefore were obliged to borrow her clothes horse. We should have been through using it, but as she has our largest wash tub, it takes us more than a day to get through with our washing."

This message produced a sensation in the house over the way. The result was the immediate return of the articles mentioned by Mrs. Adams. Mrs. Brown began to open her eyes to the fact that she was not altogether guiltless in respect to the faults she condemned in others.

She was not yet cured, however. The next day Jane made her appearance, requesting the loan of the gridiron.

"Tell your mistress," said Mrs. Adams, with civility, "that nothing would give me greater pleasure, but it is out of my power, as she borrowed it a month ago and has not yet returned it."

Mrs. Brown's eyes were opened still wider. The next day Mrs. A. was requested by message to send a list of the articles which had been borrowed by Mrs. Brown, and the latter would return them.

With Bridget's help, Mrs. Adams made out a list of thirty-seven articles, which she sent without comment.

Mrs. Brown was petrified with astonishment. Like all habitual borrowers she had not been aware of her depredations. She was really very sorry for the trouble and inconvenience she must have caused her neighbor.

She sent a message to that effect, when after two days diligent search she contrived to get together all the articles mentioned in Mrs. Adams' list.

She was now thoroughly cured of borrowing, and when this mischievous propensity was once eradicated, she ceased to be a troublesome neighbor.

[Reader, have you borrowed the paper from which you read the above, or are you a regular subscriber?]

The Daily News

NEWPORT,
144 Thames Street.

FRIDAY MORNING, JAN. 10, 1857.

E. TOURJEE, Esq., is hereby authorized to transact for us any business connected with the News and Journal office, of this city.

A Word to our Subscribers.

It will be seen by reference to our terms for supplying subscribers with a Daily and Weekly paper, that we are to receive three dollars for the one and two dollars for the other if paid in advance. Any moneys sent us for either, at any time during the present month, will be regarded as advance payment. Four dollars per year will be charged for the Daily if payment is deferred till a later period.

We doubt not those of our subscribers who have not paid, will esteem it a pleasure to do so at once.

Mr. Editor—I learn from a reliable source that your new weekly paper, the "Journal," is meeting with great favor, and success. It is almost unknown to many of us in the city, that you had a "weekly" at all. The old "Herald of the Times" we knew was dead and gone, but of its young and vigorous successor we readers of the "Daily" have not been informed. You have told us of the enterprises of Perry, of Green, of Moffat, and Gladding, but not a word of your own! out with it! Such modesty isn't suited to the times. "They" tell us that the "State" is running mad after the "Journal," and that its list in the country is gigantic! Why don't you tell us about it? We want to advertise, and make ourselves known! We keep Tin, and Clothing, Boots and Brass-castings, western Hams and Roasting Horses that the country needs, and if you can only convince us that we can catch the eyes of customers, through your weekly, we'll all come at once, and advertise! "What cheer?"

SHOEMAKER.

There is scarcely any class of men we should so much dread to encounter as "shoemakers." They are armed on all sides. Hammers, pinners, awls, knives—mercy on us! They have a perfect laboratory of instruments of torture! Already one of the clan is rolling up the white of his eyes at us. We give in, Mr. "Shoemaker," without striking a blow, and own that we do publish a weekly paper as well as a Daily. You speak of the death of the Herald of the Times. You mistake a little here; it was only passing through a crisis state. From that it emerged into a new life, and since then has been making very liberal conquests. We now scatter abroad to regular subscribers between ten and eleven hundred copies of the Journal every week. We have a "list" in all the prominent

places in the State, not excepting Providence. Moreover, we are calculating on a much wider circulation. But two days ago we had sent us 27 names as new subscribers. About New Year's day we added in a week's time over fifty. Thus the matter stands. Now, Sir, if you wish to bring your wares, of any kind, more extensively before purchasers, you can yourself decide whether that end will be attained by advertising in our columns. We have a counter at least for your "clothing," a few cases for "Boots," a corner for "Brass-castings," a score or two rusty nails for "Hams," and a few unoccupied stalls for your "Horses." You can be accommodated if you speak in season.

We intended to have expressed our thanks in person to the Hercules Engine Company No. 7, for their polite invitation to a special gathering on the evening of the 13th inst. Other engagements, however, having rendered it impossible to do this, we beg them to receive our acknowledgments, tendered in this more public manner.

The dedication services yesterday at the United Congregational Church, of this city, were unusually interesting. Fair singing, comprehensive and spiritual praying, and well-adapted, muscular preaching.

U. S. SENATOR.

In the election of James F. Simmons to the United States Senate, the American and Republican parties acted together with singular unanimity; and though Mr. Simmons had many enemies in the State, the event proved that he had more and reliable friends. Personally favoring the election of another man, whose energy of character and honesty of purpose would have given our State a high position in the Senate, we are yet quite satisfied with the result. Providence has now both senators, and though we are not of that class continually envying our neighbor's honestly earned supremacy over us, the fruits of which legitimately belong to her, yet we think that Newport should nominate the representative for the Eastern district, whose election takes place in the Spring. It is not time, perhaps, to designate any particular names in connection with that position, but we hope the other towns in our county will express their choice. We only broach the subject that it may receive the consideration due to it, and hope the choice may fall upon some Newport man. We certainly have those among us who can represent Republican and American sentiment satisfactorily.

R.

A correspondent residing in Virginia sends us an account of a grand Democratic celebration which took place in the city of Norfolk, in honor of the triumph of "Democratic principles," in the recent election. It consisted of about 60 boys and 50 negroes, with a cart bearing a banner with "old buck" on it "as large as life," a gibbet with Fremont hanging on it, and a motto "Thus may he hang in 1860." The cart was also charged with fireworks, intended for a display, at the close of the demonstration, but in an untimely moment they accidentally ignited and fire-eaters, dummies, old bucks and gibbets alike were blown out in double quick time! The crowd fled before the active demonstrations of the "double-enders," and rockets and squibs put male and female Democracy to flight. The singed fire-eaters abandoned the ground with precipitation. He says that Mr. Buchanan is generally distrusted by the H. A. Wise party, and many consider that his administration will be much more just to the principle of Freedom, than that of the "Matchless Pierce." The military parade the street every night on patrol, in order to repress imaginary insurrections of the Slaves; so true is it that a guilty conscience will invent unreal dangers to embitter its peace. The principles of Freedom are gaining ground there, and a marked change is going on in the public mind, the inevitable reaction from the absurdities of Wise, and his school of extremists. We shall from time to time give such information of passing events in central Virginia, as will prove interesting to our readers.

CHANGES.

It is, perhaps, the most remarkable feature in the political history of our country, that the "Free Soil" sentiment of the Northern States should have been thoroughly aroused in the short space of two years. Two years ago an anti-slavery meeting in New York was mobbed and dispersed; to-day nothing will fill the "academy of music" with more enthusiastic thousands than the announcement of just such an occasion. The tide of public opinion has set in that direction. The atmosphere is charged with the sentiment of Freedom, and that vast class who float with the current will henceforth swell the hosts of Republicanism. The sky of the future is bright with the promise of the coming day; and as darkness fleeth before the light, so will ignorance and Slavery fade away before the rising sun of Free Schools, making Free Men.

R.

Mr. Editor:—Will you please insert the following and oblige:

The Aquidneck Engine Co. on motion of N. M. Chafee, have appropriated thirty dollars to purchase books for the Library of the Thames street M. E. Church. The money was thus appropriated instead of being spent on a "sleigh ride." This is a deed worthy of all commendation.

In behalf of the Society I tender my sincere thanks to the Company.

O. X. BROOKS.

Newport, Jan. 10, 1857.

PROTECTION Co. No. 5, Capt. Newton, had a grand sleigh-ride last evening; they occupied the boat sleigh with the two other large sleighs, accompanied with their torch-lights and a band of music. They made—as they always do under the management of their gallant Captain—a fine appearance.

The following detail of what we presented in a condensed form will be read with interest—

SWITZERLAND.—The state of affairs between Prussia and Switzerland is unchanged. The Prussian army, 130,000 strong, and not 30,000 as before reported, or about half of the entire Prussian force, was under arms. The present state of the controversy is given above. The rights of the King of Prussia were admitted by the great powers in the Protocol of 1852, but the King of Prussia engaged not to employ hostile means to enforce them.

The Suisse de Dec. 21st publishes the following note: The Representatives at Bern of the foreign powers, held a conference at the house of M. De Salis, the French Minister, on the subject of Neuchâtel. M. Stumpfli attended the meeting.

It is reported that the Prussian Government has addressed an ultimatum to the Federal Council, fixing the 2d of January next as the last period for an unconditional liberation of the prisoners. The arming of 20,000 men, ordered by the Swiss Federal Council, will be immediately carried into effect.

A Council of War, composed of 24 Colonels, was to meet at Col. Delfour's.

The Swiss are unanimous in their enthusiasm and in the measures they are adopting. A note has been sent by President Stumpfli to each of the deputies, requesting their attendance, as a sacred duty, at the meeting of the extra session convoked for the 27th of December, specially to consider the affairs of Neuchâtel.

THE VERY LATEST.—Saturday, Dec. 27.—The Berlin journals still hold an uncompromising and bellicose tone. Thus the Zeitungs contradicts the rumors of mediation circulated by other journals. It stated that all mediation relative to the liberation of the prisoners is impossible, Prussia having demanded their release purely and simply. At present there is no hope of seeing a pacific termination of the affair.

BRUXELLES, Dec. 26.—A note bearing the names of the signers of the Protocol of London, with the exception of those of Prussia, has been addressed to the Federal Council of Switzerland, demanding the liberation of the Royalist insurrectionists. Prussia declares her hope that this general expression of the powers will terminate the conflict.

PARIS, Dec. 26.—The Swiss Police is exceedingly on its guard in various directions. The frontier Cantons have reported that Russian officers have entered the Swiss territory with a view of proceeding to take plans of the country and to survey the banks of the Rhine.

The day for the trial of the Neuchâtel prisoners is not fixed. The accused have still, up to the 27th inst., to select their defense.

The Bernese correspondent of the Journal des Debats, states that the Federal Council will submit, for the approval of the Assembly, certain new propositions of such nature that they may fitly become the starting point of satisfactory negotiations with the Cabinet of Berlin. They are the result of a preliminary understanding between several foreign States, amongst whom are some members of the German Confederation.

LONDON, Friday Evening.—The English funds opened steadily this morning at the improved quotations of Wednesday, and subsequently experienced a further advance of 1-2. The extent of business was wholly unimportant, but the public show a disposition to support the markets, and confidence is strengthened by a belief that the position of the various Continental Bourses is gradually, though slowly improving, and that for the moment, all causes of political disturbance, including the Swiss question, will be pacifically adjusted.

There was a full but not an excessive demand for money to-day. The final price of the French 3 per cent on the Paris Bourse this evening were 66 7/8 cents for money and 66 1/2 cents for end of month, showing a decline of 1-2.

The private letters from Paris manifest an improved tone. A return of the Bank of France to their ordinary limit of 60 days for discounting bills, seems to be expected almost immediately.

XXXIX. CONGRESS—Second Session.

WASHINGTON, Wednesday, Jan. 14, 1857.

SENATE.

The Senate passed the House bill making appropriations for the Military Academy.

Mr. Benjamin reported a bill providing for improvements on the Mississippi and other rivers.

Mr. Houston offered a resolution, which lies over, calling on the President to inform the Senate of the number of deserters from the Navy since the passage of the act to provide for the efficiency of the Navy, the cause of the return from the Pacific station of certain officers, and in relation to the resignation of any commissioned officers recently serving in the East India squadron.

The House bill providing for the settlement of the claims of officers of the revolution was advocated by Mr. Bell of N. H., and opposed by Mr. Chy.

HOUSE.

A large number of bills were introduced. Among them were the following:

By Mr. Carlisle—One equalizing grants of lands to the several States.

By Mr. Letcher—Establishing a Branch Mint in the city of New York.

By Mr. Colfax—Abolishing the duty on sugar.

By Mr. Woodworth—For a railroad and Telegraph to the Pacific.

By Mr. Herbert—Granting alternate sections of land to California purposes; and also a bill providing for the sale of the surveyed land in that State.

By Mr. Whitfield—For the erection of public buildings and military roads to Kansas.

By Mr. Wood—For one or more roads from the Mississippi to the Pacific.

By Mr. Florence—Equalizing the army, navy and marine pensions.

The House went into Committee of the Whole on the Tariff bill.

Mr. Akers made a speech in vindication of the American Party.

Mr. Dorice advocated protection for American manufactures.

Adjourned.

WASHINGTON, Jan. 14.

A bill was introduced in the House to-day by Mr. Letcher, for the establishment of a Branch Mint in the city of New York, and placing its control and regulation, under the direction of the Philadelphia Mint. It provides for the coinage of gold and silver, for the appointment of the necessary officers, and for the erection of suitable buildings and machinery, in connection with the Assay office.

IMPORTANT FROM JAPAN.—The Cologn Gazette of Nov. 4 has some important intelligence from Japan. It is said that a grand convocation of the dignitaries of the empire has decided to permit no foreigner to visit the interior; therefore efforts of the English, Russians and Americans to open trade with that country have proved of no avail.

BURNED TO DEATH.—A fearful catastrophe occurred at Hillsborough, N. H., on Wednesday. A house was consumed by fire, and two men named Glenn, and a Mrs. Allen and child were burned to death and buried in the ruins.

THE KANSAS COLLEGE PROJECT.—Gov. Geary has written a letter expressing his most hearty approval of the movement lately made in Lawrence for the establishment of a College in Kansas, and saying that he will be happy to unite in the undertaking.

This is the reason for the annual hiring of slaves in Virginia, and the price demanded for a year's service is higher than ever before. Good adult slaves let for \$120 to \$200.

Extract of a letter received from Rev. B. C. Thomas.

TAVOY, November 18th, 1853.—Messrs. P. DAVIS & SON, London.—The Karens have no more confidence in their ancestors. They desire rational remedies for the sick. By various means, principally through the agency of the Rev. D. L. Bratton, these Karens have become acquainted with your medicine, and their demand for it is to me very surprising.

I have now by me orders for more than fifty bottles; but I have not got one bottle! I therefore wish you to send me a quantity. I have no more confidence in the Karens. Experiments with a Solar Telegraph have been made with complete success in Paris, in the presence of Le Verrier, Liais and Struve. The rays of the sun projected from and upon mirrors; the duration of the ray makes the alphabet, after the system of Morse. It is proposed to apply it to the use of the French army in Algeria, where the ordinary telegraph cannot be worked. The posts can be established at 20 leagues from each other.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF
Colds, Coughs, and
Hoarseness.

Barnfield, Mass., 20th Dec., 1855.
Dr. J. C. Ayer: I do not hesitate to say that the best remedy I have ever found for Croup, Whooping Cough, and Hoarseness, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to be the best and most reliable remedy for the treatment of these complaints. EDWIN KNIGHT, M.D.

A. R. MORTLEY, Esq., of Uxbridge, N.Y., writes: "I have used your Cherry Pectoral in my family for the last ten years, and it has been the best remedy for Croup, Whooping Cough, and Hoarseness. It has cured many cases of these complaints, and I can recommend it to all who are afflicted with them. With a cold I do not doubt it will cure in twenty-five dollars for a bottle than I should not, or take any other remedy."

BROWNELL'S VENTILATOR.
PATENTED, SEPT. 10, 1856.
Sir:—
Herewith you are presented with a list of sizes with the price of each, auerced, of BROWNELL'S PATENT VENTILATOR for all purposes where ventilation and a strong draft are required; and are particularly designed for Rail Road Cars, Public Buildings, SMOOKY CHIMNEYS, and CARBOUSE and CARRIAGES.
The advantage proposed by this ventilator over all others is, it gives a uniform draft to a chimney, and at the same time excludes water thus doing away with two great evils—a leak draft and dampness down the chimney. The arrangement of the ventilator is very simple; it can be easily adjusted to any use for which it may be required, and it is not liable to get out of order.

GREAT AMERICAN AND FOREIGN OFFICE.
FOR SECURING PATENTS FOR INVENTIONS.
AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE WASHINGTON.
R. H. EDDY,
No. 76 STATE, OPPOSITE KILBY ST., BOSTON.

IMPORTANT INFORMATION TO INVENTORS—The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as provided by law) will be remitted by him in case of failure to obtain a patent, and the drawback through him within thirty days after the rejection.
This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by any other agency in the country. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE. Then the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents, and besides his extensive library of legal and mechanical works, and his accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
Claims, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved in time.

Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington. Patents in Great Britain, France, and other foreign countries, secured through agents of the highest respectability.
R. H. EDDY
Solicitor of Patents.

TESTIMONIALS.
During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, was my business at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

From the present Commissioner.
AUGUST 17th, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business at the Patent Office, as Solicitor. He is well acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

THE GREATEST WONDER OF THE AGE.
A REMEDY WHICH CURES IN FIVE MINUTES—M. LEROUX'S French Cholera Cough-Bitters. This truly wonderful scientific compound is recommended by all the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient cholera remedy acknowledged, and cures cholera, dysentery, diarrhoea, and all the numerous stomachic affections. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 per cent; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription, "Hail! M. Leroux, the great chemist and inventor, by whose knowledge our armies are preserved from cholera."
This invaluable preparation is also a remedy for biliousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.
In this city, also, this remedy has been tried with the most unfeigned success, and the undesignated cause of the best testimonials of our most celebrated physicians, as to its immediate and complete success, which may be happy at any time to slow to any that may wish to see them.
S. STEINFELD,
Sole Agents for the United States, 70 Nassau street, corner of John, N. Y.

P. S.—Those not able to pay, may call at my place from 3 to 5 p. m., and receive this remedy gratis.

SPRATT'S LIGHTNING RODS—With branched and other points made of pure copper and gilded with fine gold, all of which are warranted to preserve the extremity sharp and bright. Eight times as good a conductor as a spurious imitation made of cast iron, and sold last year by some dealers in lightning rods.

Also, fixtures for a new and valuable improvement in applying insulators by which the lightning is kept dry, causing no leaks in roofs of buildings, and effectually preventing the electrical fluid from being conducted by iron screws and drives into the room.

The following recommendations have been furnished gratuitously:
Louisville, Jan. 27, 1851.
The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seen.
It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary importance, to which all buildings are liable. B. SILLIMAN, Jr.,
Prof. of Chem. in the Univ. of Louisville.

This I certify that I have examined the Lightning Rods, Metallic Points, and Lightning Attachments, manufactured by Mr. Spratt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper, Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.
